

CERTIFIED RECORD OF LAND CORNER MONUMENTATION

Index File No. G-21

History of original corner establishment:

Original corner was established in 1863 by D. Thompson under contract #103. At the corner he set a post in a mound of stones.

Description of corner evidence found:

No original corner evidence found.

I Found a rock jack fence corner crumbled down with badly decayed wood with other rock jacks that appear to be at least 75 years or older running to the south and east from this corner rock jack. I measured to the North and South attempting to find evidence of the section corners to verify the location of this corner rock jack. At 2631 feet north I intersected an East-West fence and found no original evidence of the Northwest corner of Section 12. At 2678 feet I found a fence running East and a similar old corner rock jack with other rock jacks to the North which appeared to be as old as the one ¼ mile to the North but found no original evidence of the Southwest corner of Section 12. Since the age of the rock jack at the ¼ corner shows possession nearly back to the time of the original survey and the location of it is reasonable to other evidence of possession both to

Description of monument and accessories established to perpetuate the

original location of this corner: the North and South, I feel it is better evidence of the original location of the quarter corner than trying to proportion in the corner from further South and North. The fence that runs East from the ¼ corner meanders within 20 feet of a line to the East ¼ corner of Section 12.

Cap is stamped:

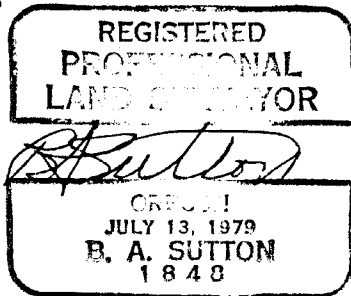

At the location of the rock jack I set a 5/8"X30" iron rod with a 1½" aluminum cap rising 8" in a mound of stones, from which:
