

CERTIFIED RECORD OF LAND CORNER MONUMENTATION

History of original corner establishment:

Original corner established in 1863 by  
D. P. Thompson under Contract No. 103

Set post in mound of earth with charred  
stake pits trench.

Description of corner evidence found:

No original evidence was recovered. Plat of Alicel indicated 1/4 section corner fell on the center line of the County road. County road notes for Road No. 26 (Hayes Road) indicated they surveyed South 1/2 mile from the N.E. corner of Section 7. County Survey No. 39-70 indicated the County Road centerline was used for the 1/4 section corner location. County road notes for Road No. 130 indicated they surveyed in 1/4, 1/2, 3/4, and mile increments so one must assume they were retracing the section and subdivisional lines of the sections for the County road surveys.

Description of monument and accessories established to perpetuate the original location of this corner:

At the centerline intersection of County Roads No. 130 and 26 I set a 5/8 inch by 30 inch iron rod with a 1 1/2 inch diameter aluminum cap 1 inch below the paved surface of the road and stamped it as shown in the above diagram.

I hereby certify the above corner point was perpetuated as hereon described on April 20, 1986.

DIRECTIONS "TO REACH"

From Island City, at the intersection of First and McAlister, take Highway 82 heading North towards Elgin. Shortly after leaving the intersection of First and McAlister you will cross a bridge over the Grande Ronde River. From this bridge, travel out Highway 82 about 5.20 miles to where Stanley Lane takes off to the left and Alicel Lane takes off to the right. From this point travel East on Alicel Lane about 0.30 miles to an intersection with Hays Road (gravel road coming from the North only). You will find the corner in a water valve box in the middle of Alicel Lane at this intersection.
