DESCRIPTION OF CORNER EVIDENCE FOUND:

Found 16" dia. octagon shaped concrete post projecting 25" above ground with marking "T" on the side.

- from which:
- A 60d Nail, 2.6' above ground, in North face of an 8" dia. Hawthorn tree bears North 57° East, a dist. of 60.0 feet.
 - A 60d Nail, 2.6' above ground, in East face of an 6" dia. Hawthorn tree bears South 30° East, a dist. of 19.6 feet.
 - A 60d Nail, 2.8' above ground, in North face of an 6" diam. Hawthorn tree bears South 32° West, a dist. of 37.5 feet.
 - A 60d Nail, 3.5' above ground, in East face of an existing railroad tie bears South 68° West, a dist. of 170.3 feet.

The current owner, Craig Schmitt, attests that the previous owner (who is now deceased) had replaced the stone found by Survey 085-1974 with a section of bridge piling. I measure from found pins of said survey to verify the location. The octagonal concrete matches remnants of other pieces of concrete in the vicinity of the entry bridge to the Northeast.

DESCRIPTION OF MONUMENT AND ACCESSORIES I ESTABLISHED TO MONUMENT THE ORIGINAL LOCATION OF THIS CORNER:

At the center of the found octagonal concrete post, I set a 5/8" x 10" iron pin, drilled 8" into the concrete, with a 2 1/2" aluminum cap marked as shown below.

I hereby certify that the corner was monumented on March 10, 2020.
