

CERTIFIED RECORD OF LAND CORNER MONUMENTATION

History of original corner establishment:

Corner ESTABLISHED by Daniel Thompson under GLO Contract No.103 dated September 03, 1863, and his record states:

Set post for 1/4 Sec. Corner in mound of stone.

T-13

Description of corner evidence found:

Found very old and long accepted fence corner rock jack in mound of stone from which fences run North, South and West - rock jack has slid down hill about 5 feet from rock mound because of age of fence and steepness of hillside - center of rock mound accepted as true corner position and is verified by measured distances and alignment to adjacent recovered corners.

Description of monument and accessories I established to perpetuate the original location of this corner:

At position in center of recovered rock mound described above...

Set a 2" x 30" aluminum pipe with 2 1/2" aluminum cap 24" in ground & projecting 6" out of ground with surrounding stone mound & placed 6' steel fence post alongside with sign 54-9 attached. Cap marked as shown in corner diagram.

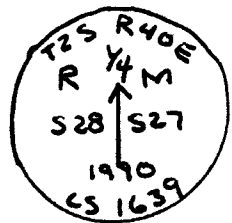

There being no trees or suitable bearing objects within limits I set the following reference monuments:

- A 5/8"x30" rebar with 1 1/2" aluminum cap brs N45°E, 10.0' dist.
- A 5/8"x30" rebar with 1 1/2" aluminum cap brs S45°E, 10.0' dist.
- A 5/8"x30" rebar with 1 1/2" aluminum cap brs S45°W, 10.0' dist.
- A 5/8"x30" rebar with 1 1/2" aluminum cap brs N45°W, 10.0' dist.

Each aluminum cap on the reference monument rebars is marked as shown to the right with the arrow pointing towards the true corner point and each rebar has a sign 54-3 attached to it.

Compass declination 19° East.

I hereby certify that the above described corner monument was properly established by me & witnessed by Patricia M. Hanley on February 02, 1990.
