Description of corner evidence found:

No evidence of original corner could be found. A dilligent search was made before the survey and after the corner position was determined.

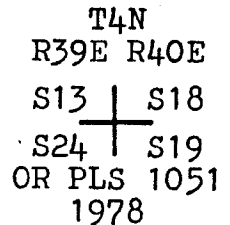

The Cottonwood thought to be a bearing tree was opened and checked for scribing. No scribing could be found and the tree appears to be too young to fit G.L.O. description.

Corner position is about 15' Southwest of Cottonwood.

Corner is at Northwest edge of Looking Glass Meadow.
