And it further appearing to the Court that the most economical way such an office can be prepared is to build a second vault on the top of the present vault to the Clerks office and make the same communicate with the room in the North wing of the Court house up stairs, and use said room in connection with said vault as a Clerks office, thus allowing the Recorder to keep as his office the old Clerks office. It is therefore considered and ordered that the Clerk advertise for bids for the construction of said vault and that sealed bids be received up to noon on July 29th 1890.
