

NOTE:  
Extended bearing of this  
fenceline for North line  
of surveyed parcel

### BASIS OF BEARING

Solar observation taken at the intersection  
of Stanley Lane and Hayes Road

### REFERENCE MATERIAL

Survey Number 38-73

### LEGEND

- Found monument as described
- Set 5/8" x 30" iron pin with plastic cap marked BGA SURVEY MARKER
- Existing fenceline
- - - Centerline

### NARRATIVE

This survey was ordered by Dale Hug. Mr. Hug was purchasing the shown area from Larry and Glenda Petersen. The Petersen tract was described as an aliquot part of a section, and a lack of monumentation made its location too expensive a task for Mr. Hug. Petersen and Goss Farms agreed to boundary agree on the existing fences for the South line and the East line of Petersen. Mr. Hug will own both sides of the West line of Section 8, and I therefore do not concern myself with the true location of the section line. The North line of the tract Hug is to purchase was established by his direction, by extending an existing fenceline Easterly to the intersection of the East line of Petersen

as established by boundary agreement. I indicated to Mr. Hug that the pins located at his Southwest and Northwest corners are not necessarily on the section line and that the dimension could change with the establishment of the section line. These corners should instead be thought of as giving direction to the North line and South line. The Northeast pin set on Stanley Lane is not necessarily on the South line of Stanley Lane and was set to define the direction of the line between Petersen and Goss Farms. The purpose of the drawing is to define the boundary agreement and the North line of the land to be purchased by Mr. Hug.

Found brass cap 18" in ground with  
marked stone alongside  
(set by County Surveyor)
