

SURVEY NARRATIVE

This survey is based on monumentation established by Baggett-Griffith and Associates for the City of Union, Ore., Survey No. 22-83, wherein the street intersections in the Swackhamer's Addition were reestablished. Data of other previous surveys conflict with the above and were rejected for the staking of the Southeast quarter of Block 13. Standard survey procedures were employed.

LEGEND

- Found monument as noted.
- Set 5/8" rebar with yellow plastic cap marked HANLEY ENGR PLS 1206
- () Record of official plat.

BASIS OF BEING.
