

### BASIS OF BEARING

Solar observation taken at the North quarter corner of Section 15, Township I North, Range 39
East of the Willamette Meridian

## LEGEND

- Found 5/8" iron pin set by survey number 5-76
- Found 5/8" iron pin with plastic cap set by survey number 9-86
- Found monument as described
- Set 5/8"x30" iron pin with plastic cap marked BGA SURVEY MARKER
- ) Record distance & bearing of survey no. 5-76
- \*\* \* Existing fenceline

Centerline

#### NARRATIVE

This survey was made to amend survey number 5-76. In preparation to survey number 9-86, a transposition was found in the northing of the coordinate of the South 1/4 corner of Section 15. The error amounted to approximately 9.4 feet. The controlling deeds for this parcel are written as metes and bounds descriptions from the Center-South 1/16 corner. This position is changed approximately 5 feet. This also changes the position of the Southerly pins of survey number 5-76. The Northerly pins are unaffected by this change. I pulled out the Southeast and Southwest pins set by survey number 5-76. The Southwest pin was bent and the Southeast pin was laying on the ground. I was unable to find either of the pins set on the Southerly end of the 30 foot jog. Earthwork in the parking lot there has probably destroyed them. I find the existing fencelines as shown.
