

BASIS OF BEARING

Solar observation taken at the Northwest corner of Section 19, Township 4 South, Range 40 East of the Willamette Meridian

REFERENCE MATERIAL

Plat of West Union Addition
 Survey Number 83-71
 Survey Number 33-77
 Survey Number 9-82

LEGEND

- Found railroad spike set by survey number 83-71
- Found railroad spike set by survey number 9-82
- ⊙ Found crosses on manhole rim set by survey number 9-82
- Set 5/8" x 30" iron pin with plastic cap marked BGA SURVEY MARKER
- ⊗ Chiseled a 2 inch cross in existing concrete sidewalk
- () Record distance
- Existing fenceline

NARRATIVE

This survey was ordered by Barbara James. The intersections of First Street and Beakman Street and also First Street and Center Street were established by survey number 33-77 and remonumented by survey number 9-82. Main Street was established by survey number 83-71. I find the monuments at the intersections in place and proportion the lots in the normal manner. I am unable to set the Northwest corner of lot 6, as an existing garage encroaches onto lot 6. I find no other problems with this survey.
