**NARRATIVE**

This survey was ordered by Forest Fletcher. The two property owners intended to trade equal parcels to create the straight line as this survey shows. I base my survey on survey 23-79. Virtually all of this survey was based upon the found monuments as shown. The Southeasterly corner of the parcel is a found monument placed for Jay Loudermilk in 1979. I then computed equal parcels by intersecting a straight line from the forementioned corner to the Westerly line of survey 23-79. I find no unusual problems with this survey.
