

NARRATIVE

This survey was ordered by Ed Frank of Oregon Realty on behalf of GTE Northwest, Inc. Our instructions were to survey and monument a 30.00 x 30.00 ft. easement for the purpose of installing telephone equipment in the Southeast corner of Section 33, Township 2N Range 39E of the Willamette Meridian. I base my survey on previous Union County Survey No. 44-84, from which I establish bearing using the East line of said section. I found the Southeast corner to be harmonious with the Northwest, Southwest, and center South 1/16 corners of said section, which were all tied for this survey. A title search was ordered and received, with no recorded conflicting easements. A power line runs adjacent to the proposed easement but does not appear to conflict with the intent of this plat. I find no other problems with this survey.

BASIS OF BEARING  
 The West line of Section 34 as being S 0°05'21" W  
 (Record bearing of survey number 44-84)

LEGEND

- Found brass cap monument of record
- Set 5/8" x 30" iron pin with plastic cap marked BGA SURVEY MARKER
- Existing fenceline
- Centerline of existing road
- Existing powerline
