

BASIS OF BEARING

Forward bearing as published by the U.S.C. and G.S. from Δ COLEGE to Δ VALLEY, Dated 1946.

REFERENCE MATERIAL

Map of Survey No. 63-79

NARRATIVE

This survey was made at the request of Richard Holecek to locate the old existing fence line in the area of the North and West lines of the East one half of the NE one Quarter of section 8, T 2 S, R 38 E, WM., as shown on the annexed map, and to also show the relationship of this fence to the North and West lines of said E 1/2 of the NE 1/4 of section 8. In the areas as shown, I found the old fence to be very crooked in some areas. I placed the iron pins on the mean alignment of the fence in these areas. The area of the 3 parcels are as shown. This is in preparation to a boundary line adjustment and does not constitute minor partition.
