Narrative

This survey was done to define the agreed upon line established by boundary line agreement MF #156479 and MF #151806 as filed at the Union County Recorder's office. The survey was based on County Survey #1993-17 and MLP #1993-17. Both surveys were done by Baggett-Griffith & Associates and completely encompasses the agreed upon boundary line. I found that the Boundary line agreement with the Millers (MF #151806) had an error with the intended bearing and the distance. The agreement states a bearing of S 51° 54' 21\"/>
