NARRATIVE

This survey was ordered by Douglas Lewis for the purpose of documenting a boundary line agreement along and existing fence line, between Mr. Lewis and Michael Becker. I was instructed to set monuments in the fence corners for the purpose of defining the direction as well as the limits of the agreement. I set a monument at the end of the fence line at Coughanour Lane. This monument is intended to define the direction but not necessarily the true intersection of the centerline of the road. The next monument is set in an existing fence corner and is intended to become the true corner of both parcels at this point. I then set an additional monument in the fence corner East of the previous point, and this is intended to be the monument defining the direction of the south agreement but does not define the true intersection of the East line of Section 13 or Section 24 as the case may be. I found the monument marking the 1/4 corner between Sections 13 and 18 as set by Union County Survey Number 011-1998, and made my tie to the boundary line agreement corner as shown. This survey is to serve as a visual aid in the description of the agreement. I find no other problems with this survey.
