NARRATIVE

This survey was performed at the request of the Union County section. The East quarter was monumented at the proportionate Nos. 9-86 and 6-2000. Survey No. 039-1993 shows the correct

Assessor in preparation for GPS observations on the corners of this position. There was an error in the coordinate of the Northeast corner of Section 15. This erroneous coordinate was used for Survey position used on this survey. I have shown the GPS coordinate positions for each corner. These coordinates do not relate to the bearings and distances on this map. To reduce GPS coordinates shown us scale factor and convergence angle on GPS Info Sheets filed separately. There are no other problems with this survey.
