## NARRATIVE

This survey was done at the request of Bart Barlow of Boise Cascade Corporation. Mr. Barlow wished to monument the East side of the Boise Cascade ownership within Sommers Addition. The City of Elgin recently passed an ordinance recorded in the deed records as microfilm number 20010263 legalizing the roads within the subdivision. The road legalization was based on Union County Survey Number 033-2000. The 2000 survey also shows a placement of the exterior of the subdivision which contains gaps and overlaps from the exterior of the Northwest quarter of the Southwest quarter of Section 15, which is the exterior of Sommers Addition. The exterior of the Boise Cascade ownership monumented by this survey is totally dependent on the street rights of way. I use survey number 033-2000 to place these lines. I extend the centerline of South 20th Street South to the aliquot line of the section to conform with the exterior line of Sommers Addition as platted. I discussed this survey with a title insurance company prior to monumentation. They concurred that the exterior lines of this ownership were controlled by the rights of way and that the legalization controlled the placement, however, the legalization did not replat or adjust the lot lines within the blocks of the subdivision, and should those individual lines need to be determined, a boundary line agreement would be required. I find no other unusual conditions on this survey.
