NARRATIVE

This survey was performed at the request of Stan Wilde on behalf of Boise Building Solutions. Mr. Wilde wanted to monument and post lines as shown on the attached map. I tied all the existing aliquot corners in Sections 32, 4, and 5. The East 1/4 of Section 32 falls in a heavily logged area and I found no evidence of the original corner. The South 1/4 of Section 5 was heavily logged and there was no evidence of the original corner. Old Book Page 272 set a stone at the Center of the Section 5. This Survey set the corner by proportioning between the East and West 1/4 corners of Section 5. I did not search for this corner because the corner was not established by the proper BLM methods. I set the corner at the intersection of the 1/4 lines as per the BLM manual. Section 4 was heavily logged. No evidence of the original corners remained and I had to proportion in the North, East, West, and South 1/4 corners. Survey No. 42–1993 set a monument for the South 1/4 of Section 4 by running record bearing and distance from the Northwest corner of Section 5. I proportioned the corner as per the BLM manual and general surveying practice. The fences are away from the property corners as shown. I find no other problems with this survey.

UNION COUNTY SURVEYOR
Date Received 7/22/02
Date Filed 7/22/02
By R. Robinson, Deputy
File No. 026–2002

REGISTERED PROFESSIONAL LAND SURVEYOR
OREGON JULY 13, 1973
GREGORY T. BLACKMAN 991
Renewal Date: Dec. 31, 2003
