### NARRATIVE

This survey was done at the request of the Union County Surveyor. Minor Partition Plat number 20100001T partitioned a portion of the Southwest quarter of Section 22. In doing that, it was necessary to subdivide the Section. I did the partition for Walter Stephens on behalf of Stephens Forestry LLC. I located the corners previously set in the Southwest quarter of Section 22 and the North and East quarter corner of the Section. In doing that, it was discovered that the monument set for the Center 1/4 corner of the section was significantly out of position. I did not need to set that particular corner for the partition. I contacted Linda Miller, who did the survey that set the monument (Survey No. 006-1996). She was not interested in correcting or resetting the monument. Some time later, the office of the Union County Surveyor was contacted by Larry Davidson, manager for the LDS land also affected by the erroneous corner. It was agreed that the office of the County Surveyor would set a monument in the correct position. That is the purpose of this survey. I have also filed a monumentation sheet documenting the new monument and its accessories. I find the conditions the same as when I did the partition in 2010. I find no other unusual conditions on this survey.
