NARRATIVE

This survey was done at the request of Norm Paullus, on behalf of the City of La Grande. Mr. Paullus wanted the centerline intersection monument along 10th Street replaced following an asphalt overlay project. I place the intersection of Hemlock and Washington from the lead plug references as per Survey Number 005-2014. From this point I drive a line to the intersection of Maple and Washington, established by the lead plug references. I place the intersection of Tenth and Washington by proportionate distance as per the 1922 monumentation of La Grande survey by McInain (18-89). From this point I drive a line to the monument at Tenth and L Avenue, set by Survey Number 036-1994 and proportion the distances as per Survey 18-89. I find no unusual conditions with this survey.
