NOTE:
All East-West lines are S86°02'29"E and All North-South lines are N01°18'08"E

NARRATIVE

This survey was done at the request of John Morrison, representing Bernal D. Hug Farms, Inc., owner of the land within this survey. The purpose of this survey is to monument a cemetery and surrounding easement area, as well as depict and create an easement for ingress and egress from the cemetery site to Oregon State Highway number 82. The alignment shown depicts the easement as centered along an existing roadway from the Cemetery Easement Area to the North line of the Northwest quarter of the Southwest quarter of Section 12. From this point to the highway, there is an existing 60 ft. easement granted by microfilm number 20025738. The Cemetery Easement Area was determined by driving lines offset 10 feet South and East of the existing cemetery North and West to the centerline of an existing roadway, with the roadway defining the Northwesterly line of the easement. I set reference pins for the Southwest and Northeast corners of the Easement Area. The lots within the cemetery were laid out in the direction of Mr. Morrison. The intent is that the lots are relative to the metric system, with the lots being 1 meter wide and either 2 or 2.5 meters in length, depending on the particular row of lots. I find no unusual conditions on this survey.
