Pretrial Legislative Changes update (SB 48)

Judge Powers reviews elements of proposal. SB 48 requires the Chief Justice establish a Judicial Department led pretrial release program. Since the 10th Judicial District is part of a small number of districts already having a release officer and established pre-trial release program. Very few changes expected from arrest to arr.

DA McDaniel indicates she met with Judge Powers and Defense Council Bartov. Substance Abuse packages for category 1 are a concern. Chair Routt points them to Overriding Circumstances (ORC) as creating a conditional release if not held pending arraignment.

Defense Council Schaeffer questions mental health only provisions.

PJ Powers says that 'danger to others' still must be considered until arraignment, there is no change there. Deputy Huelter adds that they still must get an assessment, which doesn't often happen before arraignment.

TCA Leonard points out that our ORC will mirror many of the other counties' ORCs, and they will be very similar throughout the state.

Lt. Huelter, asks what constitutes "multiple pending cases," how many is 'multiple.?' Also, what constitutes as a "length criminal history, and multiple calls for service?"

- After discussion, multiple pending cases was defined as two or more.
- Lt. Woodward recommends that 3 or more calls within 36 hours should constitute as multiple calls for service.
- Lengthy criminal history –
 - Recommendation that Travis weigh in on PVs in general, convictions and # of arrests. 6 PVs in three years suggested.
 - Length criminal history????

Jail overcrowding recommended as a reverse ORC.

PJ Powers awaits the Chief Justice's CJO on pretrial release. Once available, PJ will provide his draft PJO to committee members.
