MEASURE RENEWAL:

#31-123 FIVE-YEAR LOCAL OPTION LEVY FOR CONTROL OF INVASIVE NOXIOUS WEEDS

Shall Union County levy \$0.12 per \$1000 assessed value for five years starting with 2026-27 for noxious weed control? This measure renews current local option taxes.

The invasion of noxious weeds is one of the most serious environmental and economic threats to Union County. The value of our natural resources and our agricultural economy needs to be protected from invasive species. As residents of Union County, we need to continue to support efforts to control and manage noxious weeds. With passage of Local Option Levy for Noxious Weed Control in 2016 and 2021, the County used those dedicated funds to hire a full-time Weed Supervisor who has developed a successful and comprehensive weed management program covering all of Union County. This levy would cover the next five years beginning in 2026/2027.

An estimated \$310,000 would be available annually as a result of this levy. This tax would cost the owner of a home with an assessed value of \$100,000 a total of \$12 per year. The estimated funds available from this measure is an estimate only based on the best information available from the County Assessor at the time of the estimate.
